Subject : Construction for well furnish washroom.

Respected sir,

I would like to inform you that Dharce rural municipality ward 7, **Shree Prabhat kiran secondary school** building is under construction on the collision of Gandagi province government and Dharce Rural Municipality Government as a concept of Mega School. But due to the lack of budget, construction of school compound wall and furnish washroom for schools children and teacher staffs has not been constructed. As you know that school children will face the problem of washroom. The premises of school environment will be poluted. It affects the health of the students. So we request to support by allocating budget for constructing well furnish washroom for girls and boys seperatly .**One block for girls with 5 washroom including kids and physically disable children** where as **another block is for boys with 5 washroom including kids and physically disable children** .

I hope your organization will support our school allocating budget for constructing furnish washroom, we shall be grateful to you and your organization for your support.

Looking forward to a positive response.

Thanking You,

Headteacher

Chairman of smc

Chairman of ward
